At Fimap, quality is certified, environment is respected and safety is ensured

At Fimap, quality is certified
The ISO 9001:2000 certification is the official recognition that Fimap effectively pursues Global quality as well as, as a consequence, customer's satisfaction, thanks to more and more targeted services.

☑ The machine is manufactured in compliance with the 2006/42/EC (MD), 2006/95/EC (LV), 2004/108/CE (EMC) and the technical standards EN 60335-1 and 2 and EN 12100-1 and 2 are applied.

At Fimap, environment is respected
The ISO 14001:2004 certification is the official recognition that Fimap keeps its environmental impact under control and commits itself to further reducing it.

♻️ Fimap, an environmentally aware company, uses recyclable materials to manufacture its products. All metal components of the machine underwent protective treatments to ensure long life and oxidation-resistance in full compliance with the Directive ROHS 2002/95/EC. All plastic components are in recyclable polyethylene

At Fimap, safety is ensured
The OHSAS 18001:2007 officially certifies that Fimap is actively committed to protecting its employees' and guests' safety by means of specific procedures, investments and continuous training.
